Mr. William Casey  
Director  
Central Intelligence Agency

Washington, DC 20505

Dear Mr. Casey:

If it's your job to follow Congress, you need to know more than who voted yes or no. You need to know what they voted on and why. Now, Washington On-Line offers two unique information retrieval systems that can provide the answers you need...quickly, easily and accurately.

One is the Bill Text Tracking System, the most convenient, reliable and economical method available for obtaining the full text of all pending federal legislation. The other is the Campaign Contribution Tracking System, the first computerized file of Federal Election Commission Reports of Receipts and Disbursements you can search from your own office.

With the Bill Text Tracking System, you can immediately receive the current text of any bill in Congress. And print out as many copies as you want. In addition, our powerful keyword searching feature lets you find the text of every bill dealing with any issue simply by entering that word or phrase.

Sign-on to the Campaign Contribution Tracking System, enter the name of a candidate or political action committee, and in seconds you can find the date, amount and source of all contributions they've made and received. You can also discover all the contributions made by any individual -- as well as that person's address, telephone number, occupation and employer -- again, by simply entering their name.

Both systems work with your own PC or communicating terminal. And both offer unlimited use for one annual subscription fee. Please call me soon at 543-9101 to arrange for a presentation in your Washington office.

Sincerely,

*Suzanne Walker*
